Competiția Europeană de Statistică 2025

FRONT OFFICE - CE VĂD ECHIPELE ÎN TIMPUL PRIMEI TESTĂRI

Competiția Europeană de Statistică 2025 (1)

- Pentru a efectua prima testare sau a doua testare, link-ul de acces pentru echipele înscrise este:

https://www.esc2025.eu/esc_RO/?L=18

- Pentru acces, veți avea nevoie de numele echipei și parola de acces (conform datelor salvate în momentul înscrierii echipei)

Competiția Europeană de Statistică 2025 (2)

- Veți selecta unul dintre cele 3 tipuri de teste (testul de cunoștințe de bază, testul de utilizare a surselor de date statistice oficiale, testul de interpretare a rapoartelor statistice), respectiv accesul la testarea a doua;

- Alegeți unul dintre cele 3 tipuri de teste și apăsați butonul **Intrați** (cu Instrucțiuni) și butonul de **Start** (pentru a începe rezolvarea testului ales)

- Echipa poate alege ordinea în care va rezolva cele 3 teste;

- Răspundeți pe rând la fiecare întrebare dintre cele 10 ale fiecărui tip de test, alegând unul dintre cele 4 răspunsuri;

- La sfârșitul fiecărui test, echipa are 3 opțiuni:

1. să salveze răspunsurile/ modificările
2. să nu salveze răspunsurile/ modificările
3. să meargă înapoi (fără să salveze răspunsurile)

Competiția Europeană de Statistică 2025 (3)

- Dacă echipa apasă butonul **Salvați** – se vor salva răspunsurile echipei pentru respectivul test;

- Echipa poate vizualiza, salva și printa răspunsurile;

- Apăsând butonul de **Imprimare**, echipa descarcă răspunsurile într-un fișier.pdf

Competiția Europeană de Statistică 2025 (5)

- Dacă echipa apasă butonul **Înapoi** , echipa va putea să aleagă ori să continue acest test ori să rezolve alt test (dintre cele 3 aferente primei testări)

Instrucțiuni

- Fiecare test conține 10 întrebări sau exerciții
- Se poate răspunde în orice ordine;
- Pentru a salva răspunsurile trebuie obligatoriu apăsat butonul Salvare; utilizați în mod frecvent acest buton pentru a salva răspunsurile pe parcursul rezolvării celor 3 teste
- Puteti **salva** și printa răspunsurile;
- În timpul celor 5 ore puteți **salva** răspunsurile, ieși din aplicație și reintra în aplicație de mai multe ori dar, înainte să ieșiți să aveți grijă să **salvați** răspunsurile;
- Pentru evaluarea acestui test vor fi luate în considerare ultimele răspunsuri **salvate**. Cu alte cuvinte, nu trebuie să trimiteți nicăieri răspunsurile, doar trebuie apăsat butonul de **Salvare**

Instrucțiuni (2)

- O dată ce timpul alocat primei testări este epuizat, echipa poate intra să vadă răspunsurile corecte;

- Această platformă nu este proiectată să permită ca doi sau mai mulți utilizatori să intre simultan utilizând numele aceeași echipe/ parolă (de exemplu, doi elevi să folosească două calculatoare în același timp). S-ar putea ca niciun răspuns să nu fie salvat, deci nu este recomandată în niciun caz această soluție.

Schimbarea parolei

- Echipa poate să-și schimbe parola utilizând butonul **Am uitat parola;**
- Se deschide o fereastră în care trebuie încărcate numele echipei, e-mailul folosit la înregistrare, județul din care face parte echipa;
- Se introduce noua parola;
- Se salvează noua parolă.

SUCCES!

Front office: what the teams see in first assignment

ESC 2025

In order to perform their tests or to access the second assignment, teams log in here (link was provided to you). They use their team name and password, and choose what they want to access to:

Access to tests

Team name	ANYTEAM
Password	••••••••••
Choose a test	- Select a test -

I forgot my password

- Select a test -
1.- Basic knowledge test
2.- Test of use of official sources of statistical data
3.- Test of interpretation of statistical reports
Access to the 2nd Assignment

When selecting one of the tests of the first assignment and clicking "Enter", the platform will load a screen with instructions. There, team can choose to star the test or to change to another ("perform another test")

Access to tests

Team name	ANYTEAM
Password	••••••••••
Choose a test	1.- Basic knowledge test

I forgot my password   Enter

You can now do the **Basic knowledge test**. Press the **Start** button.

Start   Perform another test

Please read these **INSTRUCTIONS** carefully:

- This test consists of a questionnaire with **ten questions and exercises** on statistics.
- The questions are multiple choice questions, they are shown in continuous order and can be answered in any order.
- The number of hits and failures will be evaluated according to the following scale:
  - 1 point for each correct answer
  - -0.33 points for each failure.
  - 0 points for each unanswered question
- To save your progress use the "**Save Changes**" button that appears at the end of the test. Don't forget to frequently save your progress!
- When you do this, the answers that you have marked will appear and you can print them as a PDF and save it to your computer.
- You do not need to complete the test in a single session. While the deadline for the test is open you can re-enter and change, review, rethink or redo the test as many times as you want until the end of the time available.
- Sessions are of limited duration, please remember to frequently save your changes!
- **For the evaluation** of this test **only the responses last saved through the "Save Changes" button** will count. That is to say, once you finish the test, you do not need to send anything to us, just use the "Save Changes" button to save the latest version of your answers.
- Once the deadline for the completion of the test has finished you can enter to see the correct answers.
- This platform is not designed so as to allow two different users to log in and solve the same test at the same time (for example, two students using different computers at the same time). Doing so might lead not to save any answer, so trying it it's not recommended whatsoever.

By pressing start, the team will access to the questions of selected test. If this is the first time they enter the test, the platform will do the random selection of the questions:

Team: **MYTEAM** | Log out
My school, Border Region
Senior students

Instructions

This button will open a new window with the instructions

1. In a closet we have four hangers with pants, three hangers with shirts and two hangers with coats. If the hangers are randomly placed in the closet, what is the probability that the first two hangers have pants and the next two have shirts?

A. ◯ 1/42
B. ◯ 1/84
C. ◯ 1/168
D. ◯ 1/336

2. The following table shows the distribution of water expenditure in thousands of cubic metres on agricultural holdings for four Autonomous Communities by type of crop (Source INE):

	Herbaceous	Fruit trees	Olive groves and vineyards	Potatoes and vegetables
Andalucía	1,214,352	957,146	828,576	369,204
Aragón	1,777,179	121,171	52,508	46,449
Castilla y León	1,779,361	52,722	37,345	195,510
Castilla-La Mancha	921,764	27,451	86,686	332,297

Of the total water used for irrigation in agricultural operations in these four communities, what percentage corresponds to olive groves and vineyards in Castilla y León?

A. ◯ 1.7%
B. ◯ 3.72%
C. ◯ 1.81%
D. ◯ 0.42%

At the end of the test, teams can save their answers ("Save changes"), undo the changes ("Discard changes") or go back to the screen of instructions ("Back (no changes will be saved)")

10. A study seeks to determine the amount of water ingested by people in a year. The amount of water drunk by a population per year follows a normal distribution of mean 1,000 litres and a standard deviation of one tenth. What percentage of the population consumes more than 1,050 litres per year?

A. ● 69.15%
B. ○ 30.85%
C. ○ 68.65%
D. ○ 19.15%

| Save changes | Discard changes | Back (no changes will be saved) |

Basic knowledge test

Starting date: 23/8/24 9:47:40
Date of change: 23/8/24 9:49:22

Teams can see their answers and can download their work with the "Print" button

10. Of the 80 students of the first grade of a lower secondary school, 38 have a personal account on Facebook, 14 have a personal account on Instagram and Facebook, and 10 students do not have a personal account on either Facebook or Instagram. If a student, from the first grade of this school, is taken at random, the probability that he or she has an account only on Facebook or only on Instagram is:

A. 0,7
B. 0,875
C. 0,175
D. 0,4

Answer TESTEQUIPO: B. 0,875

Print   Back

"Print" creates a pdf file teams can download (dialogue window will appear in the language of each browser):

"Back" button will go to this screen, where the team can choose between continuing the test, or change to another:

You can now do the **Basic knowledge test**. Press the **Start** button.

Continue   Perform another test
