### July 2015 compared to June 2015

The volume of construction works decreased, as gross series, by 1.4%, decrease highlighted in maintenance and current repairs works of 3.3% and in new construction works of 2.8%. There was an increase of 10.3% in capital repairs works.

By construction objects there were drops of 6.0% in engineering works. There were rises in residential buildings and in non-residential buildings of 9.1% and of 3.8%, respectively.

As adjusted series by the number of working days and by seasonality, there was a total increase of 1.4%, increase highlighted in maintenance and current repairs works and capital repairs works of 8.7% and of 6.7%, respectively. The new construction works decreased by 1.3%.

By construction objects, there were rises as follows: in residential buildings of 17.2% and in non-residential buildings and engineering works of 1.1%, each.

### July 2015 compared to July 2014

The volume of construction works increased, as gross series, by 15.4%. By structure elements there were rises as follows: in capital repairs works of 21.8%, in maintenance and current repairs works of 15.1% and in new construction works of 14.2%.

By construction objects, the volume of the construction works increased in non-residential buildings by 24.4%, in engineering works by 13.6% and in residential buildings by 5.4%.

The volume of construction works increased, as adjusted series by the number of working days and by seasonality, by 15.2%. By structure elements there were rises in maintenance and current repairs works of 14.9% and in new construction works and in capital repairs works of 14.7%, each.

By construction objects, the volume of construction works increased as follows: in non-residential buildings by 25.3%, in engineering works by 10.6% and in residential buildings by 8.9%.

## Period 1.I-31.VII.2015 compared to period 1.I-31.VII.2014

The volume of construction works increased per total, as gross series, by 11.3%. By structure elements there were rises in capital repairs works of 15.8%, in maintenance and current repairs works of 11.8% și in new construction works of 10.2%.

By construction objects, the volume of construction works increased as follows: non-residential buildings by 15.5%, engineering works by 10.8% and residential buildings by 5.0%.

The volume of construction works increased per total, as adjusted series by the number of working days and by seasonality, by 11.6%. By structure elements there were rises as follows: in capital repairs works of 19.3%, in new construction works of 11.5% and in maintenance and current repairs works of 9.6%.

By construction objects, the volume of construction works increased as follows: non-residential buildings by 17.7%, residential buildings by 11.5% and engineering works by 2.4%.
