December 2015 compared to November 2015

The volume of construction works increased, as gross series, by 28.4%, increase highlighted as follows: in new construction works by 41.1%, in capital repairs works by 29.5% and in maintenance and current repairs works by 1.5%.

By construction objects there were rises of 30.6% in engineering works, of 27.8% in non-residential buildings and of 14.1% in residential buildings.

As adjusted series by the number of working days and by seasonality, there was an increase of 5.9% highlighted as follows: in new construction works by 16.6%, in capital repairs works by 1.7% and in maintenance and current repairs works by 1.2%.

By construction objects, there were rises as follows: in engineering works of 7.4%, in residential buildings of 3.5% and in non-residential buildings of 3.0%.

December 2015 compared to December 2014

The volume of construction works increased, as gross series, by 14.2%. By structure elements there were rises as follows: in capital repairs works of 71.6, in new construction works of 6.6% and in maintenance and current repairs works of 5.8%.

By construction objects, the volume of the construction works increased in engineering works by 41.2%. There were drops in residential buildings and in non-residential buildings of 23.8% and of 16.2%, respectively.

The volume of construction works increased, as adjusted series by the number of working days and by seasonality, by 8.8%. By structure elements there were rises as follows: in capital repairs works of 55.6% and in maintenance and current repairs works of 4.2%. The new construction works decreased by 0.5%. By construction objects, the volume of construction works increased in engineering works by 34.4%. There were drops in the volume of construction works in non-residential buildings of 20.0% and in residential buildings 4.7%.

Year 2015 compared to year 2014

The volume of construction works increased per total, as gross series, by 10.4%. By structure elements there were rises as follows: in capital repairs works of 31.8%, in maintenance and current repairs works of 13.3% and in new construction works of 5.2%.

By construction objects, the volume of construction works increased in engineering works by 20.0% and in non-residential buildings by 1.1%. There were drops in the volume of construction works in residential buildings of 5.8%.
