

## Errata

In press release no. 183 of 10 July 2020, **Table 2: Partial indices calculated by excluding certain items from the CPI**, the data will be corrected as follows:

**Table 2: Partial indices calculated by excluding certain items from the CPI**

– previous month = 100 –

	June 2020 %
All-items CPI excluding alcoholic beverages and tobacco	100.08
All-items CPI excluding fuels	100.01
All-items CPI excluding products whose prices are regulated*)	100.08
All-items CPI excluding vegetables, fruit**), eggs, fuels and products whose prices are regulated*)	100.27
All-items CPI excluding vegetables, fruit**), eggs, fuels and products whose prices are regulated*), beverages and tobacco	100.30
<b>ALL ITEMS</b>	<b>100.08</b>

We should mention that the rectification of the table was due to an error in the taking over and writing of the partial indices: *All-items CPI excluding alcoholic beverages and tobacco*, *All-items CPI excluding fuels* and *All-items CPI excluding products whose prices are regulated*.

In the case of the first two partial indices, a writing error occurred, with the values being reversed. In the case of the index on the *All-items CPI excluding products whose prices are regulated*, the value of the partial index on the *CPI excluding vegetables, fruit, eggs and administered prices* was erroneously taken over from the internal work file.

This rectification does not have an impact on the total value of the Consumer Price Index and on the other data published in the press release.

The complete and revised version of the press release is on the NIS website at the address [www.insse.ro](http://www.insse.ro) and replaces the previous version of press release no. 183/July 10, 2020.
