#### Additional information:

**FOB/CIF trade balance** is calculated on the basis of the FOB export value and CIF import value as difference between them. The negative balance of the trade balance is called deficit and the positive one is called excedent.

**FOB price** (Free on Board) represents **the price at the border of the exporting country**, which includes the value of the commodity, all transport expenditures to the shipping point as well as all the fees for the commodity to be loaded on board.

**CIF price** (Cost, Insurance, Freight) represents **the price at the border of the importing country**, including both components of FOB price and the cost of insurance as well as the cost of the international transport.

For a correct interpretation of the indicators, kindly see the [Methodological Notes](#).

The statistical data on exports (FOB), imports (CIF) and FOB-CIF balance, in both euro and lei, can be accessed in the [Annex](#) in .xls format related to the press release.
