Additional information:

- ✓ The turnover represents the total revenue recorded by the company during the reporting period, obtained from both the main activity and the secondary activities performed. The turnover does not include VAT and the revenue from the sale or transfer of assets.
- ✓ The value indices of the turnover of market services rendered mainly to enterprises are Laspeyres-type indices. The first indices obtained are at CANE Rev.2 level and then, by successive aggregations, indices at total level are obtained. The weights used for aggregation are calculated based on the turnover according to the results of the Structural Business Survey of the reference year (2010).

For the correct interpretation of results, kindly see the [Methodological Note attached to the press release on the homepage](#).

For additional information, kindly see the statistical publication Monthly Statistical Bulletin (date of issue September 26, 2017) and the online TEMPO database of the INS (data for July 2017 will be available on September 15, 2017).

The next issue of the press release will be on Friday, October 13, 2017.
