IMPORTANT!

- ✓ *The information in this press release (June 2020) capture the impact of the COVID-19 crisis and of the measures taken by the authorities following the state of emergency decree on the Romanian territory starting with March 16, 2020 and the state of alert starting with May 17;*
- ✓ *The National Institute of Statistics understands the difficulties faced by our respondents during this period and we are aware that the answers to the statistical surveys may not be a priority at present.*
- ✓ *However, by collecting statistical information, we will be able to monitor and inform all our users about the effects of COVID-19 on our economy and society.*
- ✓ *We appreciate the continued support of our respondents in the statistical surveys conducted by the National Institute of Statistics and understand the difficulties which all providers of statistical data are facing.*

Additional information:

- ✓ The turnover represents the total revenue recorded by the company during the reporting period, obtained from both the main activity and the secondary activities performed by them. The turnover does not include VAT and the revenue from the sale or transfer of assets.
- ✓ The turnover volume indices of the retail are Laspeyres type indices and are calculated under comparable prices and methodological conditions. For expressing the values of the current period in prices of the reference period, the deflating price indices are used (consumer price index). The first indices obtained are at the level of class/group CANE Rev. 2, then, by successive aggregations, indices at aggregated levels are obtained. The weights used for aggregation are calculated based on the turnover according to the results of the Business Structural Survey from the reference year (2015).
- ✓ The response rate to the monthly statistical survey on short-term indicators in services (SERV TS), turnover chapter (CANE 47), was 81.3% in June 2020 compared to 84.8% in June 2019.

For the correct interpretation of the indicators, please see the [Methodological Notes attached to the press release on the homepage](#).

For more information, see the INS TEMPO online database (the data for June 2020 will be available on August 18, 2020) and the Monthly Statistical Bulletin (date of issue August 27, 2020).

For comparable data with the other Member States of the European Union, kindly see the Eurostat press release which will be issued today, August 5, 2020 and posted at the following address: <http://ec.europa.eu/eurostat>

The next issue of the press release will be on Thursday, September 3, 2020.
