- January 2010 – March 2018 -

- 2015=100 -

[Chart data in xls format \(III.2017-III.2018\)](#)

### March 2018 compared to February 2018

Compared to the previous month, in March 2018 the industry turnover increased per total by 14.4% due to increases registered in manufacturing (+14.4%) and in mining and quarrying (+13.0%).

By main industrial groups, there were increases as follows: in energy industry (+20.2%), in non-durable goods industry (+17.2%), in durable goods industry (+13.7%), in intermediate goods industry and in capital goods industry (+12.9% each).

### March 2018 compared to March 2017

Compared to March 2017, in March 2018 the industry turnover globally increased by 9.3% due to rises in mining and quarrying (+18.4%) and in manufacturing (+9.0%).

By main industrial groups, there were rises as follows: in energy industry (+33.6%), in capital goods industry (+14.0%), in non-durable goods industry and in durable goods industry (+4.6% each) and in intermediate goods industry (+2.5%).

### Period 1.I-31.III.2018 compared to period 1.I-31.III.2017

Compared to period 1.I-31.III.2017, in the period 1.I-31.III.2018 the industry turnover globally increased by 13.7% due to rises in manufacturing (+14.0%) and in mining and quarrying (+3.5%).

By main industrial groups, there were rises as follows: in capital goods industry (+17.6%), in energy industry (+17.5%), in intermediate goods industry (+12.9%), in non-durable goods industry (+7.8%) and in durable goods industry (+7.0%).

### Additional information:

- ✓ **IMPORTANT!** In order to highlight the changes in the economy structure, starting with the data release for January 2018 reference month the base year used for the calculation of the indices, for all short-term indicators, was changed from 2010 to 2015.
- ✓ The changing of the base year involves the updating of the weighting system, to reflect the structural modifications occurred in the national economy activities. These modifications determined the proper recalculation and revision of the data series previously published.
- ✓ These changes will appear in press releases, statistical publications published by the INS and in the TEMPO online database.
- ✓ Turnover represents the total revenue recorded by the enterprise during the reference period; both from its core business and its secondary activities. Turnover does not include VAT and income from the sale or transfer of fixed assets.
- ✓ Turnover value indices are Laspeyres-type indices and they measure its evolution on total, by sections, by CANE Rev.2 divisions, as well as by large industrial groups.

For the correct interpretation of the indicators, please see the [Methodological Notes attached to the press release on the homepage](#).

For more information, see the statistical publications Monthly Statistical Bulletin (date of issue May 25, 2018), Industry Statistical Bulletin (date of issue May 18, 2018) and the INS TEMPO online database (the data for March 2018 will be available on May 16, 2018).

The next issue of the press release will be on Tuesday, June 12, 2018.
