Additional information:

- ✓ **IMPORTANT!** In order to highlight the changes in the economy structure, starting with the data release for **January 2018** reference month the base year used for the calculation of the indices, for all short-term indicators, was changed from 2010 to 2015.
- ✓ The changing of the base year involves the updating of the weighting system, to reflect the structural modifications occurred in the national economy activities. These modifications determined the proper recalculation and revision of the data series previously published.
- ✓ These changes will appear in press releases, statistical publications published by the INS and in the TEMPO online database.
- ✓ Turnover represents the total revenue recorded by the enterprise during the reference period; both from its core business and its secondary activities. Turnover does not include VAT and income from the sale or transfer of fixed assets.
- ✓ Turnover value indices are Laspeyres-type indices and they measure its evolution on total, by sections, by CANE Rev.2 divisions, as well as by large industrial groups.

For the correct interpretation of the indicators, please see the [Methodological Notes attached to the press release on the homepage](#).

For more information, see the INS TEMPO online database (the data for November 2018 will be available on January 18, 2019) and the statistical publications: Industry Statistical Bulletin (date of issue January 18, 2019) and Monthly Statistical Bulletin (date of issue January 28, 2019).

The next issue of the press release will be on Tuesday, February 12, 2019.
