## INDUSTRIAL PRODUCTION IN APRIL 2025

- In **April 2025**, industrial production decreased by 8.4% as gross series **compared to March 2025** and was up 2.3% as series adjusted by number of working days and seasonality.
- **Compared to April 2024**, industrial production fell by 9.6% as gross series and was down 2.4% as series adjusted by number of working days and seasonality.
- In the **1.I-30.IV.2025** period, industrial production decreased by 5.3% as gross series compared to the 1.I-30.IV.2024 period and was down 2.6% as series adjusted by number of working days and seasonality.

### Monthly evolution of industrial production

- January 2021-April 2025 -

- series adjusted by number of working days and seasonality -

2021=100

[The graph data in xls format](#)

In **April 2025**, industrial production (**the gross series**) decreased by 8.4% **compared to the previous month** due to drops in the three industrial sectors: the electricity, gas, steam and air conditioning supply (-13.5%), manufacturing (-7.9%) and mining and quarrying (-5.1%).

Industrial production (**the series adjusted by number of working days and seasonality**) increased by 2.3% **compared to the previous month** due to rises in manufacturing (+2.9%) and the electricity, gas, steam and air conditioning supply (+0.1%). A 0.8% drop was reported for mining and quarrying.

**Compared to the same month of the previous year**, industrial production (**the gross series**) fell by 9.6% due to drops in manufacturing (-11.3%) and mining and quarrying (-3.9%). The electricity, gas, steam and air conditioning supply was up 1.8%.

Industrial production (**the series adjusted by number of working days and seasonality**) was down 2.4% **from the same month of the previous year** due to the falls reported for mining and quarrying (-3.4%) and manufacturing (-2.9%). A 3.0% rise was recorded for the electricity, gas, steam and air conditioning supply.

In the **1.I-30.IV.2025 period**, industrial production (**the gross series**) fell by 5.3% compared to the 1.I-30.IV.2024 period due to drops in the three industrial sectors: manufacturing (-6.1%), mining and quarrying (-2.1%) and the electricity, gas, steam and air conditioning supply (-0.9%).

Industrial production (**the series adjusted by number of working days and seasonality**) was down 2.6% in the **1.I-30.IV.2025 period** from the 1.I-30.IV.2024 period due to the falls reported for manufacturing (-3.1%) and mining and quarrying (-1.7%). The electricity, gas, steam and air conditioning supply was up 0.2%.

#### Industrial Production Indices, for the total and by section of industry

- percentages -

Industrial Production Index – IPI		April 2025 compared to:		1.I-30.IV.2025/ 1.I-30.IV.2024
		March 2025	April 2024	
TOTAL	G	91.6	90.4	94.7
	S	102.3	97.6	97.4
Mining and quarrying	G	94.9	96.1	97.9
	S	99.2	96.6	98.3
Manufacturing	G	92.1	88.7	93.9
	S	102.9	97.1	96.9
Electricity	G	86.5	101.8	99.1
	S	100.1	103.0	100.2

G = gross series; S = series adjusted by number of working days and seasonality

#### Industrial production indices (%)

- gross series -

Growth rates (CANE Rev. 2 divisions)

April 2025/April 2024

Div.	Name of the division	Div.	Name of the division
05	Mining of coal and lignite	20	Manufacture of chemicals and chemical products
06	Extraction of crude petroleum and natural gas	21	Manufacture of basic pharmaceutical products and pharmaceutical preparations
07	Mining of metal ores	22	Manufacture of rubber and plastic products
08	Other mining and quarrying	23	Manufacture of other non-metallic mineral products
09	Mining support service activities	24	Manufacture of basic metals
10	Manufacture of food products	25	Manufacture of fabricated metal products, except machinery and equipment
11	Manufacture of beverages	26	Manufacture of computer, electronic and optical products
12	Manufacture of tobacco products	27	Manufacture of electrical equipment
13	Manufacture of textiles	28	Manufacture of machinery and equipment n.e.c.
14	Manufacture of wearing apparel	29	Manufacture of motor vehicles, trailers and semi-trailers
15	Tanning and dressing of leather; manufacture of luggage, handbags, saddlery, harness and footwear; dressing and dyeing of furs	30	Manufacture of other transport equipment
16	Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials	31	Manufacture of furniture
17	Manufacture of paper and paper products	32	Other manufacturing
18	Printing and reproduction of recorded media	33	Repair and installation of machinery and equipment
19	Manufacture of coke and refined petroleum products	35	Electricity, gas, steam and air conditioning supply

- same month of the previous year=100 -

#### Additional information:

- ✓ The industrial production index (IPI) is a volume index and measures the evolution of the results of industrial activities in one period compared to another.
- ✓ The industrial production indices describe the evolution of industry overall, by CANE Rev. 2 sections (mining and quarrying, manufacturing, the electricity, gas, steam and air conditioning supply) and divisions, as well as by main industrial groupings.
- ✓ The indices are calculated on the basis of a sample of representative products that are grouped into 719 CPSA 2015 elementary subclasses, for which quantitative data regarding the production achieved are recorded. The aggregation of the primary indices is done through a system of successive weightings; the first aggregated indices are those at the CANE Rev. 2 subclass level, and the next levels are determined as a weighted arithmetic mean of the indices of the immediately lower level.
- ✓ Beside the gross indices of industrial production, indices that are adjusted by number of working days and seasonality are also calculated on a monthly basis, through the regressive method, using the JDemetra+ software package (the TRAMO/SEATS method).

For more information, see the TEMPO online database of the NIS (the data for April 2025 will be available as of 13 June 2025), the Industry Statistical Bulletin (date of issue 27 June 2025) and the Monthly Statistical Bulletin (date of issue 30 June 2025).

Comparative data at EU level can be obtained from the Eurostat press release which comes out on Friday, 13 June 2025, and which can be accessed at the following address: <https://ec.europa.eu/eurostat/web/main>.

The next press release on industrial production indices will be issued on Tuesday, 15 July 2025.
