²⁾ Provisional data on registered road vehicles, classified according to the European vehicle emissions standards

Within the *passenger cars* category, the highest share was that of Euro 4 vehicles, namely 32.8%; within the *buses and minibuses* category, the greatest number of vehicles (namely 22.0%) were Euro 3 vehicles; as regards the *mopeds and motorcycles*, the greatest number of vehicles within this category (namely 22.9%) were classified as Non-Euro.

The Euro 3 vehicles prevailed within the *lorries* category (26.8%), the Euro 6 vehicles prevailed within the *road tractors* category (45.9%), and the greatest number of vehicles within the category of *special purpose road vehicles* (namely 22.0%) were classified as Non-Euro.

Additional information:

The new registrations of road vehicles comprise the registrations of new vehicles, including those of lease-purchased vehicles, as well as the registrations of imported used vehicles, classified according to the Community vehicle categories.

The re-registrations due to change of owner as a consequence of the sale of the motor vehicle are not included. Trams and trolleybuses, military vehicles, agricultural trailers and housing vehicles are also not included.

The vehicles registered, at the end of the reference quarter, present provisional data on the registered road vehicles classified according to the European vehicle emissions standards. Three- and four-wheeled motorcycles are included under the “mopeds and motorcycles” category. The special purpose road vehicles include fire brigade vehicles, mobile cranes etc.
