MORE JOB VACANCIES IN THE SECOND QUARTER 2015

- In the second quarter of 2015, the **job vacancies rate** was 1.06%, increasing by 0.03 percentage points as against the previous quarter.
- The **number of job vacancies** was 47.4 thousand, increasing by 2.3 thousand as against the previous quarter.
- By comparison with the same quarter of 2014, the job vacancies rate increased by 0.22 percentage points and the number of job vacancies increased by 11.1 thousand.

Rate and number of job vacancies
– Quarter II 2012 – Quarter II 2015 –

[Graph data \(xls\)](#)

The rate and number of job vacancies by activity of national economy

In the second quarter of 2015, the **highest job vacancies rates** were registered in *public administration* (3.17%) and *in other service activities* (2.50%).

In *manufacturing* was concentrated almost 30% from the total number of job vacancies (14.1 thousand job vacancies), having a value rate of 1.27%.

The budgetary sector summed up over one third of the total number of job vacancies. Thus, 8.0 thousand job vacancies were registered in *public administration*, 6.0 thousand job vacancies in *human health and social work activities*, respectively 2.2 thousand job vacancies in *education*.

At the opposite side, the **lowest** values for both the rate and the number of job vacancies were found in *mining and quarrying* (0.10%, respectively 0.1 thousand job vacancies),

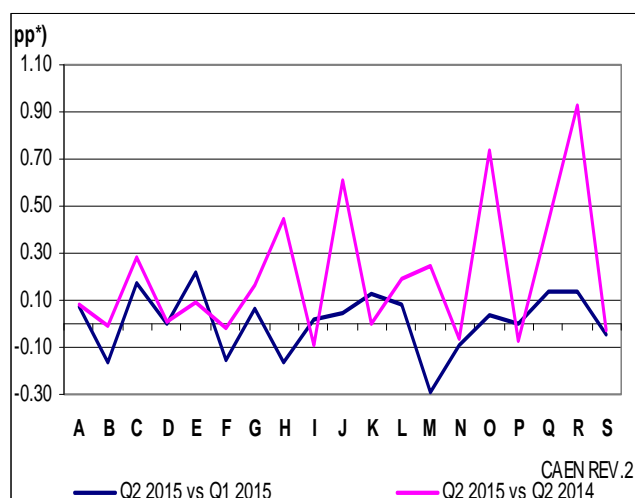

followed by *electricity, gas, steam and air conditioning supply* (0.15%, respectively 0.1 thousand job vacancies).

Quarter II 2015 compared to previous periods

As against the **previous quarter**, the most significant **increases** of the job vacancies rate were registered in *water supply; sewerage, waste management and remediation activities* (+0.22 percentage points), respectively in *manufacturing* (+0.17 percentage points).

As concerning the number of job vacancies, the most important **increases** were found in *manufacturing* (+2.1 thousand job vacancies), respectively in *wholesale* (+0.5 thousand job vacancies).

Decreases of the job vacancies rate were noticed in *professional, scientific and technical activities* (-0.29 percentage points), followed by *mining and quarrying* (-0.16 percentage points) and as regarding the number of job vacancies in *construction*, respectively in *transportation and storage* (-0.4 thousand job vacancies each).

*) pp – percentage points

[Graph data \(xls\)](#)

As against **the same quarter of the previous year**, the job vacancies rates registered **relevant increases** in *arts, entertainment and recreation* (+0.93 percentage points), respectively in *public administration* (+0.74 percentage points) and the most significant **decrease** was for *accommodation and food service activities* (-0.09 percentage points).

The number of job vacancies **increased** in *manufacturing* (+3.6 thousand job vacancies), respectively in *public administration*

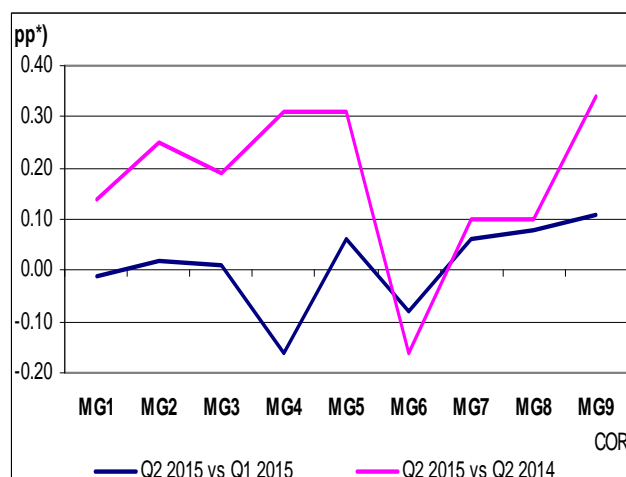

(+2.1 thousand job vacancies) and in *education* (-0.3 thousand job vacancies) was noticed the most relevant **decrease**.

The rate and number of job vacancies by major groups of occupations

In the second quarter of 2015, the **highest** demand for paid labour force expressed by employers for both the rate and the number of job vacancies was for *professionals* - major group 2 (1.42%, respectively 13.7 thousand job vacancies), respectively for *elementary occupations* - major group 9 (1.22%, respectively 7.6 thousand job vacancies) and the **lowest** demand for *skilled agricultural, forestry and fishery workers* - major group 6 (0.43 percentage points, respectively 0.1 thousand job vacancies).

Quarter II 2015 compared to previous periods

As against the **previous quarter**, the **most relevant increases** for both the rate and the number of job vacancies was registered for *elementary occupations* - major group 9 (+0.11 percentage points, respectively +1.0 thousand job vacancies), and at the opposite side with the most significant **decreases** the occupation related to *clerical support workers* - major group 4 (-0.16 percentage points, respectively -0.4 thousand job vacancies) were found.

*) pp – percentage points

[Graph data \(xls\)](#)

As against **the same quarter of the previous year** the most significant **increase** of the job vacancies rate was registered for *elementary occupations* - major group 9 (+0.34 percentage points), and as concerning the number of job vacancies for *professionals* - major group 2 (+2.7 percentage points).

The only decrease for both *the rate* and *the number of job vacancies* were for *skilled agricultural, forestry and fishery workers - major group 6* (-0.16 percentage points, respectively -0.01 thousand job vacancies).

Additional information
