The balance indicates the perception of the companies' managers concerning the dynamics of a phenomenon, which should NOT be seen as the intensity of increase or decrease of any statistical indicator value that is produced by the NIS.

The balance is calculated as a difference between the percentage of respondents who chose the positive alternative of the phenomenon and the percentage of those who indicated the negative alternative.

Manufacturing

According to the business tendency survey of April 2019, managers from the manufacturing industry forecast a moderate growth of the production volume (balance +14%) for the next three months. The biggest growth is registered for the manufacturing of non-metallic mineral products (balance +37%), while, for the manufacturing of tobacco products, a decrease is estimated (balance -36%).

Regarding the number of employees, a relative stability is estimated, the balance being +4% per total manufacturing.

For the prices of the industrial products, a moderate growth is forecasted for the next three months (balance +13%).

Construction

According to April 2019 estimations, there will be a growth in the production volume of the construction activity for the next three months (balance +29%). Managers forecast a moderate growth in the number of employees (balance +14%).

As to the prices of construction works, a growth is forecasted (balance +26%).

Retail trade

In the retail trade sector, managers estimate a growth in the economic activity for the next three months (balance +22%). The volume of orders placed by the trade units to the suppliers of goods will also grow (balance +21%).

Employers forecast a moderate growth in the number of employees (balance +11%) for the next three months.

For the next period, managers of trade companies estimate a growth of the retail prices (balance +24%).

Services

According to April 2019 estimations, the demand for services (turnover) will register a moderate growth for the next three months (balance +10%).

For the services sector it is forecasted a relative stability in the number of employees (balance +4%).

According to the managers, the selling or invoice prices of provisions will register a moderate growth trend (balance +11%).
