The balance indicates the perception of the companies' managers over the dynamics of a phenomenon, which should NOT be seen as the intensity of increase or decrease of any statistical indicator value that is produced by the INS.

The balance is calculated as a difference between the percentage of respondents who chose the positive alternative of the phenomenon and the percentage of those who indicated the negative alternative.

Manufacturing

According to the business tendency survey of December 2017, managers from the manufacturing industry forecast a relative stability of the production volume (balance +1%) for the next three months. A growth tendency (balance +16%) is estimated for the manufacturing of other transport equipment.

For the prices of the industrial products, a moderate growth is forecasted for the next three months (balance +14%).

Regarding the number of employees, a relative stability is estimated, the balance being -2% per total manufacturing.

Constructions

According to December 2017 estimations, there will be a decrease in the production volume of the construction activity for the next three months (balance -37%). Managers also forecast a decrease in the number of employees (balance -25%).

As to the prices of construction works, a moderate growth is forecasted (balance +14%).

Retail trade

In the retail trade sector, managers estimate a relative stability in the economic activity for the next three months (balance +3%). The volume of orders placed by the trade units to the suppliers of goods will register a moderate decrease (balance -6%).

Employers forecast a moderate growth in the number of employees (balance +10%) for the next three months.

For the next period, managers of trade companies estimate a growth of the retail prices (balance +23%).

Services

According to December 2017 estimations, the demand for services (turnover) will register a relative stability for the next three months (balance +4%).

For the services sector it is forecasted a moderate growth in the number of employees (balance +7%).

According to the managers, the selling or invoice prices of provisions will register a trend of moderate growth (balance +8%).
