#### Informații suplimentare:

##### IMPORTANT NOTICE

Following Romania's accession to the Schengen Area on 01.01.2025, starting with January of this year, information regarding the arrivals of foreign visitors to Romania and the departures of Romanian visitors abroad are no longer comparable and will no longer be published.

##### Methodological notes

**The arrival** of a tourist in an establishment of tourists' reception with functions of tourists' accommodation is registered when a person signs in the register of the respective establishment for one night or several nights' accommodation. In each establishment of tourists' reception with functions of tourists' accommodation, regardless of the number of overnight stays, the continuous stay of a tourist counts as one arrival.

**The overnight stay** means the 24-hours interval, starting with the admission hour of the respective establishment, for which a person signs in the register of the establishment and benefits of accommodation according to the price paid, even if the actual stay lasts less than the mentioned interval.

**The net use index of accommodation places** represents the relationship between the capacity of tourist accommodation in operation and its actual use by tourists within a determined period. We do the calculation by dividing the total number of overnight stays completed with the tourist accommodation capacity in operation, in the respective period.

The nomenclature of the accommodation structures was established starting from the list of authorized accommodation structures, downloaded from the website of the Ministry of Economy, Entrepreneurship and Tourism-Department for Tourism, on January 8, 2025.

The list included 15258 structures with over 10 bed places, of which 9344 accommodation structures and 5914 apartments and rooms for rent.

In June 2025, out of the total accommodation places, 3093 units were in major repairs and 1707 did not complete the questionnaire for other reasons.
